

ML Exam Instructions

1. Download your exam from “[https://gitlab.cs.uni-saarland.de/bornas/ml-exam/-/raw/master/<matriculation #>.zip](https://gitlab.cs.uni-saarland.de/bornas/ml-exam/-/raw/master/<matriculation%20#>.zip)”,
e.g., “<https://gitlab.cs.uni-saarland.de/bornas/ml-exam/-/raw/master/123456789.zip>” for the matriculation # ‘123456789’.
2. Un-Zip (i.e., decompress) the exam using as password your CMS username, e.g., ‘Isabel’. Your username can be found in CMS (<https://cms.sic.saarland/ml/>) , PERSONAL STATUS -> PERSONAL DATA -> USERNAME.
3. Please verify if that the question booklet PDF consists of 4 PROBLEMS and 6 PAGES, and that all questions are readable, else contact the examiners immediately. At maximum, you can earn 40 POINTS.
4. Submit your solutions to each problem separately to the CMS (in <https://cms.sic.saarland/ml/submissions> you can find the submission portals for each of the four problems). For each problem (and thus submission) you are only allowed to submit one PDF file with all your answers for that problem. So please indicate clearly the question that each question corresponds to in the PDF.
5. Submit the filled “ML Exam Overview” on the next page to the CMS submission portal ‘*ML Exam - Overview*’ (<https://cms.sic.saarland/ml/submissions>). If filling up the PDF is not technically possible for you, simply copy the document by hand, and scan and submit it.
6. You are allowed to write your solutions and derivations on paper using a black or blue pen. You may use plain or lined paper. As it often causes readability issues when digitized, we do not allow squared paper. You are also allowed to write your solutions digitally—for example using LaTeX, Word, or a notepad app on your tablet.
7. The exam is planned for 2 hours. You have until 16:15 hours to write your answers, until 16:30 to raise your potential technical issues, and until 17:00 to submit the final version of your solutions (grading will be performed on this one). CMS allows for updating your submission several times, as long as this happens before the deadline. Solutions must be handed in on time. Late or unreadable submission will not be graded.
8. This is an open-book exam. You are allowed to consult the books, slides, and lectures while writing it. If you use external resources, properly cite them. You are not allowed to consult others. Plagiarism is not condoned.
9. For any question approach the examiners via the Zoom link:
<https://cs-uni-saarland-de.zoom.us/j/95689761541?pwd=Z0cyMHU2OUVhM2pwSVZuV3pIcWtZQT09>
10. We will additionally keep track of main Q&A in the document:
https://docs.google.com/document/d/18nQR1ia-QoDFisum57zEa2dghb2ZYxwBzr_JfkAEqUA/edit?usp=sharing
